

4/28/26

Madison,

I am very grateful to have had you as my Stats 2 GSI. You have played a large role in solidifying my understanding of the content. I appreciate your hard work in preparing key points of lecture and explaining the labs thoroughly.

You have really displayed a deep understanding of statistics which is shown in the way you teach. Your impact has always encouraged me to attend discussion every week and has always been beneficial. Thank you for all that you have done, I wish you the best in all that you do.
